

Use this keyboard to help solve these puzzles

Wondering what to do? Just follow the instructions

- Write the names of the white keys on the keyboard diagram
- Find the starting note (in the 1st box of the puzzle) on the keyboard – point to it
- Follow the directions in the next box – move your finger
- Write the name of the note you have reached on the dotted line
- Repeat this for each box
- If you've counted correctly each group of letters will spell a word

Want to know what a semitone is?

It's the distance between any key on the keyboard and the very next key up or down

Here's a clue – on a keyboard **up** means to the **right** and **down** means to the **left**

So **high** means near the **right-hand end** of the keyboard
and **low** means near the **left-hand end** of the keyboard

Start on any	Go up 2 semitone steps	Go up 5 semitone steps	Go down 4 semitone steps
D

Start on a low	Go up 4 semitone steps	Go up 5 semitone steps	Go up 2 semitone steps
F

Start on a high	Go down 3 semitone steps	Go down 2 semitone steps	Go down 3 semitone steps
C

Start on a low	Go up 5 semitone steps	Go up 12 semitone steps	Go up 2 semitone steps
B
